Thanks to your kind generosity, the money you have helped us raise will be going towards emergency medical supplies, food, and the disaster relief clean-up from the August 2020 blast. While we greatly appreciate how much has been raised so far, the people in Lebanon still need our help. An estimated \$5 billion dollars is required to repair the extent of the damage to infrastructure, homes, and businesses. Additional funds are needed for the four hospitals destroyed, medical supplies for the 7000 injured, shelters for the 300,000 left homeless, and the overall cleanup of the wrecked infrastructure and shattered homes.

In addition to the Lebanese struggling to overcome the damages from the blast, they are dealing with high unemployment rates, poverty, corruption, and crime. The spread of COVID-19 has made the already dire situation in Lebanon even more dangerous. The distribution of vaccines has been very slow and vulnerable individuals are not being prioritized access as they should be. Hospitals and healthcare workers are beyond their capacities, and lacking much needed COVID-19 supplies such as ventilators, oxygen tanks, and personal protective equipment such as face masks.

This is an extremely critical time for Lebanon and its people. Your continued contributions are much needed to provide the supplies and support that Lebanon so desperately needs. Please consider donating to the American Lebanese Policy Institute. You may donate through our website (www.alpi.us.com), through Zelle (donate@alpi.us.com), or by check (mailing address to the left). Your full donation will go directly to the purchase and shipment of necessary supplies to Lebanon.

We thank you and appreciate you for your continued support.

Sincerely,

ALPI

Sami Daou

Treasurer

ALPI is a US-based nonprofit humanitarian organization dedicated to helping the less fortunate people in Lebanon with basic needs and healthcare support by providing medicine, food, clothing, shelter, education, and more through "Kelna 3ayleh" (We are all Family).
